Marketing Strategy & Future Plans

Phase 1: Idea Generation

Internconnect

Phase 1 consisted of brainstorming app ideas and market research.

We were able to identify:

- Idea & Purpose
- USP
- App Features
- User Personas
- Target Market

Idea & Purpose

Our groundbreaking app would be a dynamic platform designed to empower international students pursuing their academic goals in the United States by being their panacea for all things internships and immigration. We plan to equip these students with a rich resource of knowledge, essential tools, and valuable connections that are vital for guiding their academic journeys and facilitating a seamless transition into the U.S. workforce, all of which could be found on a single platform and would save them the trouble of skimming through multiple sites.

Our mission is to cultivate a holistic ecosystem that enhances the educational experience and career prospects of international students. We aim to foster a sense of community, offering guidance and unlocking numerous opportunities. The app would be dedicated to helping international students realize their full potential, thrive in a foreign educational environment, and achieve personal and professional success.

USP

Unique Selling Proposition:

"Unlock Your Global Success Story with Internconnect!"

Internconnect is more than an app; it's your compass to navigate the challenges of international education seamlessly. Empowering you with immigration insights, career opportunities, and a supportive community, Internconnect simplifies your academic journey. Discover personalized mentorship, visa guidance, and a vibrant network to propel your success as an international student in the U.S. Join Internconnect today and embrace your journey toward academic and professional triumph!"

App Features

The app's primary purpose is to empower international students studying in the United States by providing them with a comprehensive platform.

It offers various features, including the ability to create detailed student profiles, information on U.S. work authorization, connecting students with legal experts, tracking progress in work authorization processes, and providing job and internship listings with a focus on visa-sponsoring companies.

The app also facilitates mentorship opportunities, fosters social connections among international students, and shares educational resources and important news. Ultimately, its mission is to enhance the academic and career experiences of international students, foster a supportive community, and help students achieve success in a foreign educational environment and the U.S. workforce.

USER PERSONAS

Rose

Age: 20

Gender: Woman

Nationality: Chinese

Level: Undergraduate

Major: Computer Science

Interests:

- Tech industry
- Involved in coding club
- Connection seeking

Goals:

- Connect with mentors in the tech industry.
- Access exclusive internship opportunities
- Find reliable resources to enhance her coding skills

Ahmed

Age: 30

Gender: Man

Nationality: Turkish

Level: Graduate

Program: MBA

Interests:

- Finance industry
- Values networking and mentorship

Goals:

- Finding mentor in financial industry
- Access legal resources related to visas & employment

Target Market

Demographics

- Ages 18-30
- Undergraduate and Graduate level
- Inclusive to all genders
- Inclusive to all participating countries
- Based in United States

Interests + Behaviors

- Actively seek opportunities for professional growth
- Show interest in building robust network of peers and mentors
- Students who are highly involved in extracurricular activities, part-time work, or research

Pain Points

- Struggling with networking
- Seeking reliable resources for academic success and internships
- Needing legal guidance and support related to visas

Phase 2 – App Design

Branding

- Creation of branding elements
- Internconnect 360 globe + arrow logo, blue + yellow color scheme and tagline
- Produced mock ups of interface on Figma

Why “Internconnect”?

- Wordplay on connection between international students
- Subtle implication of finding internships

Played w/ app functions

- Experimented w/ different tasks (i.e profile creation)
- Added & scrapped app functions/ideas (i.e accommodations)

Group Reflection

- Since we are a diverse group of international students, we reflected on our our academic challenges, needs & wants
- Group reflection played a key role in creating app tasks
- Personal experience allowed for innovation of the app

Phase 2 Mockups (Figma Files)

Phase 3

Survey

- Creation of survey w/ questions pertaining to the functionality of Internconnect
- Collected insightful feedback for app improvement

Defining Tasks

- Solidified chief tasks such as login, profile creation, internship finder, job listings, find events, leave feedback and access to study materials

Recording

- Took note of any confusion encountered by testers
- Recorded a tester's first run w/ Internconnect for further observation

Analysis

- Identified a pattern of issues; text color, text size, creatives and color contrast
- Prioritized which problems are crucial/directly affect app usage

TESTING PROCESS

Prepare

Questionnaire:

The survey we conducted played a crucial role in collecting essential insights and feedback vital for evaluating our latest app prototype. Its primary goal was to thoroughly examine three key aspects: usability, design, and overall user impressions. This survey was instrumental in understanding how users interacted with the app, assessing its visual appeal, and gauging the overall experience users had with our prototype.

Recorded

Observations:

While exploring the app, users had some trouble with text color, text size, creatives and color contrast. We took this into account and improved our app based on these cons. Users enjoyed the simplicity of the interface, as well as its innovative nature. They especially enjoyed how comprehensive the app is; for example, users can find educational resources, mentors and jobs all in one place.

Marketing Strategies & Future Plans

Future Integrated Marketing Strategy

Campaign Description: "Unlocking International Success"

The "Unlocking International Success" campaign for Internconnect is a comprehensive marketing initiative aimed at achieving key objectives crucial for the app's growth and success. Focused on aiding international students and graduates, this campaign emphasizes Internconnect's role in facilitating a seamless journey towards academic and professional accomplishments.

Campaign Objectives

Financial Recovery :

Internconnect's primary goal is to solidify its financial stability by implementing strategic pricing models, including subscription-based and tiered pricing structures. Additionally, enticing promotional offers will be introduced to retain customers and drive revenue growth.

Amplifying Brand Awareness:

To heighten brand awareness, Internconnect will leverage various social media platforms, particularly LinkedIn, Facebook, and Instagram. Engaging content will be curated to showcase the app's value proposition, unique features, and benefits for international students and graduates.

Increasing App Traffic :

Efforts will be directed towards targeted advertising campaigns encompassing search engine marketing (SEM) and display advertising. These initiatives aim to augment website traffic, enhance user engagement, and encourage exploration of the app's array of services tailored for the international student community.

Brief social media content examples targeting both
recruiter/mentors and students to join

Internconnect

For Students:

- Educational Content:
 - Provide tips on resume building, interview preparation, and career development specific to STEM fields.
- Career Paths:
 - Highlight diverse STEM career paths with success stories to inspire and inform students about potential opportunities.
- Live Q&A Sessions:
 - Host live Q&A sessions with successful professionals to provide insights and answer students' questions.
- Contests and Challenges:
 - Engage students with coding challenges and interactive contests to promote skill development and creativity.
- Networking Events:
 - Promote virtual networking events where students can connect with mentors and industry professionals.
- Success Stories:
 - Share real success stories of students finding mentors or internships through InternConnect.

For Recruiters:

- Mentor Spotlights:
 - Feature mentor spotlights, showcasing experienced professionals in STEM fields actively mentoring students.
- Mentorship Success Stories:
 - Share success stories of mentor-mentee relationships formed through InternConnect.
- Tips for Mentors:
 - Provide content offering advice and tips for mentors, focusing on effective communication and fostering positive mentorship experiences.
- Networking Opportunities:
 - Promote networking events where mentors can connect with other professionals and share insights.
- Educational Content:
 - Create content addressing challenges mentors may face and offering resources to enhance their mentorship experience.

Campaign Length

Phase 1: May to end July

Objective: Engagement and Onboarding

- Emphasize the benefits of Internconnect for summer internships, mentorship, and academic resources.
- Targeted email campaigns and social media ads will highlight the app's features, encouraging new sign-ups and guiding users on maximizing its functionalities.

Phase 2: September to end of November

Objective: Community Growth

- Leverage the back to school period to foster community engagement among international students and recent graduates.
- Focus on user-generated content, testimonials, and success stories, showcasing how Internconnect has supported users' academic and professional journeys.

Phase 3: December to end April

Objective: Sustaining Community Engagement

- Build on the established community and user connections, encouraging continued engagement and interaction.
- Implement targeted content addressing new academic semesters, career guidance, and immigration updates to retain users and attract new ones.

Media Plan & Budget

Media Plan Breakdown:

Social Media Marketing - \$350,000

Objective: Increase brand awareness, user engagement, and app downloads among international students and graduates.

- Sponsored posts on Facebook, Instagram, and LinkedIn targeting key demographics, emphasizing the app's benefits and unique features.
- Collaborations with influencers or student ambassadors to amplify reach and engagement.
- Engaging content creation such as video testimonials, success stories, and tips for international students.

Search Engine Marketing (SEM) & Search Engine Optimization (SEO) - \$350,000

Objective: Enhance online visibility, attract organic traffic, and drive app downloads.

- SEM campaigns targeting relevant keywords related to international student support, immigration assistance, and career opportunities.
- SEO optimization for Internconnect's website and app store listings to improve organic search rankings.
- Continuous monitoring and refinement of SEM and SEO strategies for optimal performance.

Media Plan & Budget

Email Marketing - \$150,000

Objective: Nurture user relationships, promote app updates, and encourage user engagement.

- Personalized email campaigns tailored for different user personas, highlighting app features, success stories, and mentorship opportunities.
- Automated email sequences for onboarding new users, sharing educational resources, and highlighting community events.

Billboards & Events - \$150,000

Objective: Enhance brand visibility among international student communities in selected areas.

- Strategically placed billboards near university campuses or areas with a high concentration of international students & schedule events.
- Creative designs showcasing the app's benefits, emphasizing community, career support, and immigration guidance.

The budget for the plan is \$1 million, with each media channel allocated a portion of the budget. The table indicates which months each media channel will be used starting May 2024.

[illegible]

Marketing Plan Process

Step 1: Market Research

The market research we conducted for creating Internconnect was based on user needs, pain points and questionnaire feedback.

Step 2: Target Market

We defined our target market by identifying user preferences, needs and more through market research. Additionally, creating user personas helped in aiding and refining this process.

Marketing Plan Process

Step 3: USP

Clearly articulating what sets Internconnect apart from its competitors is key. Internconnect is the only all in one hub for international students seeking success in the U.S. Students can find anything from mentors to internships to lifelong friends on Internconnect.

Step 4: Social Media Marketing

Social media marketing is highly efficient for an app like Internconnect. We would prioritize platforms like Instagram, Facebook and LinkedIn for a more targeted reach. We identified that users of these platforms would be most likely potential customers of Internconnect.
